1923 - 2024
MORE THAN 100 YEARS OF HUMMEL

THIS IS OUR HISTORY

1923

Albert Messmer develops one of the first football cleats in the world. With his brother Michael Ludwig Messmer, he founds the company Messmer & Co., that will go on to become known as hummel.

1956

The visionary Bernhard Weckenbrock takes over the company. He creates a comprehensive brand identity and introduces the chevrons.

1969

The first sportswear collection is launched. Sponsorships are signed and help boost sales. A rounder version of the bumblebee than the current one is created.

1968

The first sponsorship deal is signed. The deal is with Duisburg, a team playing in the 2nd German Bundesliga.

1970

hummel is introduced to the Northern European market.

1979

hummel signs a sponsorship deal with the Danish national team for the first time – a deal that lasts until 2004.

1988

hummel signs a sponsorship deal with Real Madrid and the club's biggest star, Emilio Butragueño. The deal makes hummel products even more popular.

1999

hummel gets a new owner – Thornico. Christian Stadil becomes part of the brand history. He launches a reintroduced, original sport style collection on the fashion market and hummel becomes a trendsetting sports apparel brand.

1992

It's a surprising win, to say the least. The Danish national team takes the title at the European Championships having played Germany in the final.

2020

In 2020 hummel team up with the historic football club Everton FC and return to the Premier League after 13 years of absence. The chevrons are back on the biggest football stage again!

2019

In 2019, hummel substantiates its status as an original handball brand by signing the German handball club, THW Kiel – unarguably one of the biggest clubs in the World.

2016

After many years hummel once again sponsors a team in the German Bundesliga. SC Freiburg plays a sensational first season after returning to the first league and qualifies for international competition.

1923

100 YEARS IN SPORT

In 2023, we celebrated a century of hummel – marking 100 years of proud heritage in the world of sports.

SUBLIMATION

DESIGN YOUR OWN KIT

JERSEY AND SHORTS - DESIGNED WITH SUBLIMATION

With the hummel BeeSpoke and Sublimation programme, clubs can have unique kits and create their own vision of style. Clubs can choose from five jersey styles with either short or long sleeves, and a variety of special colours and designs. Furthermore, it is possible to add your own design through our sublimation programme.

With endless design possibilities, design variations and flexibility on quantity and lead time, hummel BeeSpoke and Sublimation highlight the individuality of every single club and caters to speciality needs and requirements.

It's time to go explore the extensive possibilities of the hummel BeeSpoke and Sublimation universe

CONTACT YOUR LOCAL HUMMEL DISTRIBUTOR

Login to the DESIGNHUMMEL website and Click▶ on the "create new design" button or click on one of the inspirational jerseys already created

ONLY SUBLIMATION - ONLY SUBLIMATION - ONLY SUBLIMATION

Instead of stripes you can also upload your own unique design with the sublimation technology.

All styles are available in mens, womens and kids sizes.

THERMO BONDED

INNER CARCASS BLADDER

The restricted carcass bladder does not allow the ball to increase its size. It ensures the stability of the outer cover material and makes the ball last longer.

POLYESTER LINING

The polyester lining strengthens the bond between the bladder and the foam layer in order to improve shape retention for a longer life.

HIGH PERFORMANCE FOAM LAYERING

The foam layer creates a soft touch feel and greater bounce along with high reactive speed off the foot. the ball perfectly round.

PERFECTLY ROUND PU SURFACE

The Thermo Bonded footballs are made with no thread and no stitching. It's made with Heat Infused Technology (HIT), that increases the shape conformity and makes the ball perfectly round.

HYBRID & KINETIC

WEIGHT STABILIZING BLADDER

The fiber winded SR bladder is used to achieve correct weight and strong foundation for the outer cover material.

POLYESTER LINING

The inner lining prevents the foam from cracking and tearing.

EXTRA SOFT FOAM LAYERING

The extra thick foam layer in the Hybrid / Kinetic balls ensures greater durability and life along with reduced impact and a soft feeling on the foot.

RESISTANT PU SURFACE

Still being machine stitched, the Hybrid/Kinetic balls are sealed by heat pressure making the balls last longer and keep them perfectly round.

MACHINE + HAND STITCHED

INNER BLADDER

Inner rubber bladder giving vivacity and bounce to the ball and securing minimum expansion over time.

POLYESTER LINING

Machine Stitched : It controls damage to the foam and helps close seams efficiently.
Hand stitched: 3 – 4 layers of polyester are used as a replacement for foam and improves shape retention and rebound.

LIMITED LAYER OF FOAM

With a very limited foam layer the regular balls are slightly harder than others. Hand stitched balls with no foam at all.

STITCHED PU SURFACE

Regular footballs are either machine stitched or hand stitched meaning the seams are not sealed. Still with only 10% water uptake.

FOOTBALL INFLATION GUIDE

PREPARATION

During wintertime we suggest to store the footballs at room temperature [20 – 25°C] for minimum 24 hours before the first inflation in order to secure optimal softness and shape.

Unfold the football with both hands and shake the bladder free.

VALVE OIL

Drip 1 – 2 drops of hummel valve oil into the valve. It is important that valve-oil is used at every inflation as it makes the valve seal properly.

INFLATE

Position the valve upwards and insert the inflation needle straight into the valve.

Always use a long pump needle to ensure the needle does not damage the valve or the bladder.

CHECK PRESSURE

— Inflate the ball to the recommended pressure.

— Recommended pressure is printed on the ball near the valve.

— Inflate slowly to allow the ball to gain its correct shape. Rapid inflation can damage the bladder.

— Use a pressure gauge to check the pressure of the ball.

FOOTBALL MAINTENANCE GUIDE

BEFORE EACH INFLATION

Always drip 1 – 2 drops of hummel valve oil into the valve before inflation to ensure that it seals properly.

STORAGE

Store the ball at reduced pressure in a dry ventilated room at 20 – 25°C.

CLEANING AND DRYING

After use clean the football in mild soapy water and rinse with water. Then wipe the ball off with a towel and let it fully dry in a dry, airy place at 20 – 25°C.

Never dry the ball on or near a heating device.

HYBRID HANDBALLS

UNIQUE DOUBLE BLADDER CONSTRUCTION

Inner and outer rubber bladders reinforced by a cotton and polyester lining for a perfect mix of bounce and stability. The inner bladder makes your ball vivid and bouncy, while the unique second bladder takes the bounce to new heights!

STRONG HYBRID CONSTRUCTION

Hybrid handballs are extra strong and durable. All PU hexagons are machine-stitched and glued together before being hardened under compression giving a super smooth surface and a perfect roundness.

THICK FOAM-BACKED PU SURFACE

With Air Touch foam to back a thick PU surface, you're sure to experience extra softness and a better grip. The PU of Storm Pro has even been upgraded with a microfiber padding providing a whole new dimension of softness.

REGULAR HANDBALLS

TRADITIONAL RUBBER BLADDER

Inner rubber bladder covered by a white cotton and polyester lining giving you a great mix of bounce and stability when you set your ball in motion.

FOAM-BACKED PU SURFACE

All PU hexagons are hand-stitched and backed with foam of different thicknesses depending on the type of ball best suited for your game plan.

HANDBALL INFLATION GUIDE

PREPARATION

During wintertime, we suggest to store the handballs at room temperature [20 – 25°C] for minimum 24 hours before the first inflation in order to secure optimal softness, shape and grip.

VALVE OIL

Drip 1 – 2 drops of hummel valve oil into the valve. It is important that valve-oil is used at every inflation as it makes the valve seal properly.

INFLATE

Position the valve upwards and insert the inflation needle straight into the valve. Always use a long pump needle to ensure the needle does not damage the valve or the bladder.

CHECK PRESSURE

- Inflate the ball to the recommended pressure.
- Recommended pressure is printed on the ball near the valve.
- Inflate slowly to allow the ball to gain its correct shape.
Rapid inflation can damage the bladder.
- Use a pressure gauge to check the pressure of the ball.

HANDBALL MAINTENANCE GUIDE

BEFORE EACH INFLATION

Always drip 1 – 2 drops of hummel valve oil into the valve before inflation to ensure that it seals properly.

STORAGE

Store the handball in a ventilated room at 20 – 25°C.

PRINT GUIDE

- DO** take extra care with the print press
- DO** adjust the machine settings to the correct pressure per cm² and printing time
- DO** have the correct temperature settings as supplied in manual [max temperature 140°C]
- DO** use rubber pad for the garment's print area to lay on

- DO NOT** heat directly onto any existing print on the garment
- DO NOT** use either paper or Teflon sheet to protect existing print from the heat plate
- DO NOT** heat garment for any longer than 15 seconds

IMPORTANT! Providing that these guidelines are followed correctly, you should have a perfectly printed garment with no damage done to the existing print.

hummel is not liable for any damage made to the existing print/logo, should it be reheated and/or if the instructions are not followed correctly. This can damage existing print or logo leading to peeling-off or cracking.

FROM CRADLE TO CRADLE

A SUSTAINABLE SPORT CATALOGUE

This Sport Catalogue is a cradle-to-cradle certified product.

This means that you turn the pages of a guaranteed sustainably printed product, which is 100% biologically decomposable and completely free of any toxic chemicals and heavy metals. It also means that in producing this catalogue, we have reused the earth's resources in a natural circular process, leaving no harmful waste materials, which are dangerous to people or the environment. In other words, you could bury this catalogue in your garden and even plant

vegetables on top without damaging the environment or your health!

The Cradle-to-Cradle certification is a holistic environmental certification which guarantees that a product does not pollute or eat into the earth's limited resources but enters nature's own circuit. In line with our Company Karma philosophy, we encourage these new environmentally responsible and circular processes, securing a healthy world for future generations, from cradle to cradle.

Cleanprint
by Strandbygaard

This catalogue is a Cleanprint product, which is Cradle to Cradle Certified® Silver.
