# REBEL IRONS

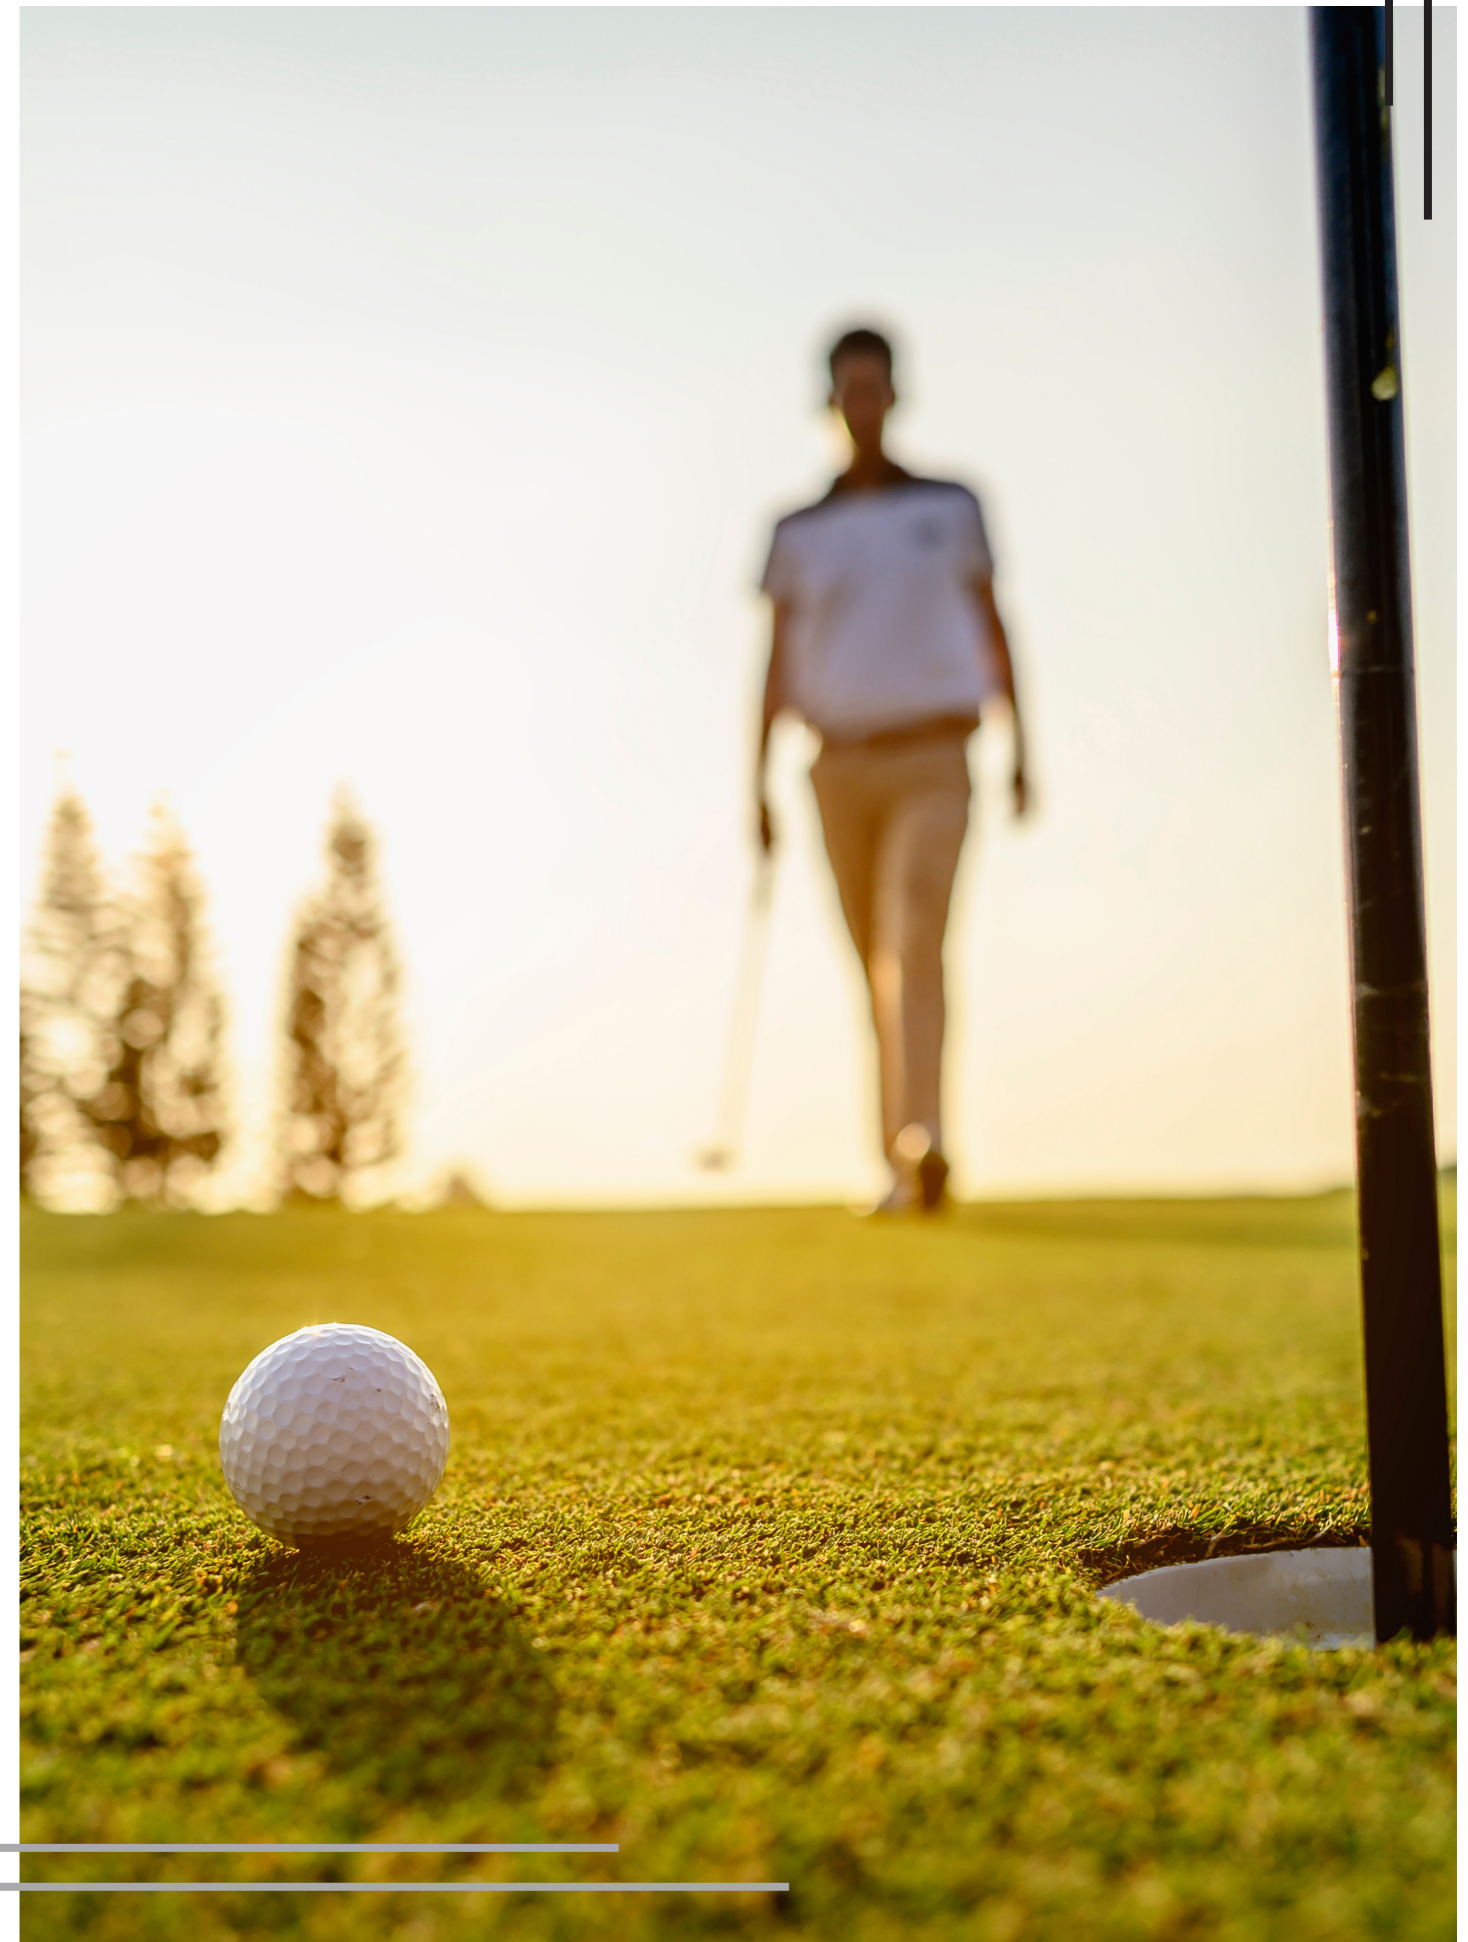

The Rebel Irons are cavity-back irons with a traditional appearance. With a slightly wider sole and a small wing along the bottom of the club, which helps get the ball in the air because of the added mass low. But that's not the biggest advantage of the wing, that would be helping shots hit somewhat heavy to behave more like flushed impacts.

- Wide sole cavity back performance heads
- Stainless steel heads
- 100% KBS graphite shafts
- KBS steel shafts
